CIPP pipe lining & pipe coating training seminar

Pipe Lining Supply of Illinois will be hosting a CIPP Certification training seminar at our warehouse facility in Batavia Illinois. Thursday, October 24th, 2019.

We will be certifying attendees in the Cured in Place Pipe process under the ASTM F-1216 & ASTM F-1743 methods of installation and Pipe Coating methods of installation (IAPMO IGC351-2018A).

This training includes:

Correct methods and approvals for Pipe Coating drain-vent-waste pipe.

**CIPP**
A. History of CIPP Lining
B. Sizes addressed in CIPP processes
C. Who uses CIPP for laterals & why
D. Governing Methods & ASTM’s governance
E. Design Life
F. Flow Characteristics
G. Resins
H. Approvals
I. Installation
J. Websites
K. FAQ’s
L. Certification
M. Best Practices
N. Proper storage, handling, mixing, wetting out

Private contractors and municipal inspectors are welcome. Registration and coffee begin at 8:00 am and the presentation begins at 8:30. The presentation should wrap up by 12:00 pm followed by lunch and demonstrations for those interested Pipe Coating and shooting a 6” lateral sewer lining. We should finish up at about 4:00 pm. Whether you’ve attended a previous seminar, are experienced in sewer lining or would just like to learn about the process, this should be a good day of learning. Plenty of Q&A with the speakers and guests should be expected.

**$50 per person**

Please RSVP to blehman@pipeliningsupply.com or phone 630-326-9061. Space is limited so please RSVP as soon as you plan on attending.
